KORG
INSPIRED TO CREATE. CREATED TO INSPIRE.

What a Revolution Sounds Like. The M3 Music Workstation/Sampler.

NEW! The KORG M3 is has arrived!

The M3 features a number of innovations distilled from the flagship OASYS including the new EDS (Enhanced Definition Synthesis) sound generator derived from the HD-1 engine design, the advanced second-generation KARMA™ functionality, and the multi-purpose control surface. Adding innovations such as the new concept of "virtualized hardware" that allows an even closer integration with DAW systems, Drum Tracks which provide a instant groove to play along with, and the new "Korg Komponent System" concept that facilitates more flexible system construction, the M3 Music Workstation/Sampler opens a new and exciting page in music making – it's the workstation that rightfully deserves to wear the "M" that started it all.

Services your residents demand, all from one company...

NUVISIONS

delivering digital convergence™

Introducing the most innovative way to manage residential buildings and enhance your property's uniqueness.

The NuConcierge system's uniqueness stems from its continuously updated rich content which includes neighborhood and city events, unique discounts (redeemed with a custom design resident card) and an unmatched user-friendly interface. The result is a very high percentage of registration and usage among residents - enabling the platform to become a highly effective communication and community tool for management.

- Precise and seamless residential building management that improves the sense of community for residents
- A custom website that manages documents and information about your building and the neighborhood
- Communicate with every resident for updates and maintenance/service requests
- Package tracking with barcode scanners and signature pads
- Online permission to enter
- Contact management database
- Management messaging systems, events calendar and online concierge
- Key tracking system
- Neighborhood merchant discounts and marketplace
- Building documents and appliance user guides
- In-House Service Providers (babysitters, housekeepers, dogwatchers, etc.)
- Local news and events
